WITH THE MAGIC SLATE!

THRIFTY SHOPPING— The housewife can write her grocery list on the Magic Slate, list prices of items as selected and total before reaching check out cashier. With Ken+Add, errors can be corrected on the spot.

HOME— Use Ken+Add for keeping the family budget, or just adding Bridge or Canasta scores. Use Ken+Add for accurate home records, church, clubs, etc.

SCHOOL— In elementary classrooms, children find use for Ken+Add in related-to-life studies as they operate a schoolroom post office or play store. In upper grades, home economics studies point out the importance of THRIFTY SHOPPING and watching the family budget. Even teachers find Ken+Add helpful in balancing record books.

CHILDREN— School teachers use Ken+Add to teach children arithmetic the modern way by doing and seeing. With Ken+Add children better understand the carry-over system as well as the decimal system in relation to dollars and cents. With Ken+Add, mothers can motivate the child's interest in arithmetic.

BOWLING— Ken+Add is used for totaling bowling team scores, saves league secretaries' time and alley time for proprietors.

DAILY ADDITIONS— Retail store clerks, service establishments, salesmen, etc., will find Ken+Add a handy adding machine to do every day additions. Ken+Add is convenient for checking hotel service bills—or any bills.
