Duplex

2 MACHINES IN ONE

DEBITS - CREDITS · ACCOUNTS RECEIVABLE - ACCOUNTS PAYABLE · INCOMING STOCK-OUTGOING STOCK

These and similar "related classifications" which appear in business figure work again and again, frequently have to be added or subtracted by group, compared in total, or accumulated into grand totals. The new WALTHER DUPLEX line of adding machines, equipped with two separate registers and other exclusive features, are specifically designed to handle this type of calculating work. When equipped with wide carriages, they permit these "related classifications" of figure work to be processed at the same time and to be printed in one or more columns on forms designed for the particular work involved.

DUPLEX MODEL DS 12

with 2 separate Credit Balance Registers; indexing capacity 11 digits, totalling capacity 12 digits; negative or negative and positive transfer from Register 1 to Register 2; addition or subtraction at will in either Register or in both Registers simultaneously; automatic accumulation of totals.

This model handles all Duplex work not requiring 2 column printing. Paper rolls up to 3-9/16" (88 mm) wide may be used.

DUPLEX MODEL DS 232

with 12 $\frac{1}{2}$ " (32 cm) Shuttle Carriage, 2 separate Credit Balance Registers; indexing capacity 11 digits, totalling capacity 12 digits; negative or negative and positive transfer from Register 1 to Register 2; addition or subtraction at will in either Register or in both Registers simultaneously; automatic accumulation of totals. Fast, smooth carriage operation for 2-column printing on business forms or paper tape. The DS 232 can be set for printing reference numbers on the left and amounts on the right or, if desired, for printing amounts in both columns.

Shuttling width is adjustable from 1 $\frac{5}{32}$ " to 2 $\frac{3}{32}$ " (35-53 mm). Variable vertical line spacing. Carriage Positioning Control Bar to permit setting the carriage to stop at predetermined horizontal positions.

MODEL DS 224 same features as Model DS 232, but with 9 $\frac{1}{2}$ " (24 cm) Shuttle Carriage.

MODEL SR 232

with 12 $\frac{1}{2}$ " (32 cm) Shuttle Carriage. This model is furnished with one Credit Balance Register; indexing capacity 11 digits, totalling capacity 12 digits. The SR 232 can be set for printing reference numbers on the left and amounts on the right, or amounts in both columns.

MODEL SR 224

same features as Model SR 232, but with 9 $\frac{1}{2}$ " (24 cm) Shuttle Carriage.

MODEL SR 132

with 12 $\frac{1}{2}$ " (32 cm) Manually Operated Carriage. This model is equipped with one Credit Balance Register. Indexing capacity 11 digits; totalling capacity 12 digits. The carriage can be moved manually to any desired position.

MODEL SR 124

same features as Model SR 132, but with 9 $\frac{1}{2}$ " (24 cm) Manually Operated Carriage.

In addition to the special features indicated above, the Duplex and Wide Carriage models are equipped with all the other outstanding WALTHER features including

Compact 10 key keyboard with featherweight key action. Quiet operation.

Attractive design in "Eye Easy" colors. Column Indicator. Correction Lever.

And above all: **Unrivalled Performance**, made possible by a flexible keyboard which accepts figures faster, and a flashing operating speed of 200 printings per minute.
